A full moon is a time of intensified energy, inspiration, insight and vision. This is the most powerful time of the moon phases to honour ourselves through rituals of letting go of that which no longer serves us.

If there is someone to forgive, a grudge you've been holding, a habit you can't seem to release, a pattern you would like to heal... this is the time to address it.

We will do this with a guided ritual and fire burning ceremony, followed by mini Tarot readings for each participant. This evening will be incredibly cleansing, empowering and FUN!

Lori has been reading Tarot cards for over 30 years to clients all over the world. She's a big believer that the answers you seek are already within you – she's simply helping you access these answers while clearing any energetic traffic jams along the way.

This isn't fortune telling or cheesy gimmicks – it's about hooking into your energy to help you figure out your purpose and reach your potential. It's about facing challenges with clarity and courage. It's about finding the fun in your life and being the designer of your dreams.

People have described what Lori does as empowering, healing and hilarious – she calls it “woo woo without the cuckoo”.
